

Date Released

September 1, 2017

Desktop

Type	Change
[ADD]	GraffitiGrid now has a DrawCellBackground method to draw the proper background for cells when overriding the default background painting for custom cell types. This is applied by default for menu and progress cells.
[ADD]	GraffitiHTML editor now supports arbitrary file dropping, and by default will add a link to the file. Still fires UserImageDropped event.
[FIX]	GraffitiGrid's double-click to edit functionality works properly in HighDPI again.
[FIX]	GraffitiGrid now properly responds to mouseovers on column headers.
[FIX]	GraffitiCalendar now properly fires GotFocus and LostFocus when using SetFocus and ClearFocus.
[FIX]	GraffitiHTML editor now allows setting visibility and tooltip of table buttons and section.
[FIX]	GraffitiHTML editor now properly sets the HTML contents of the control if set in Window.Open.
[FIX]	GraffitiHTML editor now properly fires GotFocus and LostFocus when using SetFocus and ClearFocus.
[FIX]	GraffitiHTML editor once again inserts links properly on MacOS.
[FIX]	GraffitiHTML editor once again inserts videos properly on MacOS.
[FIX]	GraffitiHTML editor toolbar buttons no longer fire twice on MacOS.
[FIX]	GraffitiHTML editor now supports both local and remote images.
[FIX]	GraffitiHTML editor once again supports image dropping.
[FIX]	GraffitiHTML editor once again properly updates SelStart and SelLength on MacOS.
[FIX]	GraffitiSyntaxEditor no longer malforms text entered.
[FIX]	GraffitiSyntaxEditor now properly fires GotFocus and LostFocus when using SetFocus and ClearFocus.
[FIX]	GraffitiSyntaxEditor autocomplete once again functions as expected.
[FIX]	GraffitiDesktopControl rolled back to using TitleChanged event, no longer requiring firewall exceptions when using Calendar, HTML editor, or SyntaxEditor.
[NOTE]	GraffitiSyntaxEditor updated to latest library version.
[NOTE]	GraffitiHTML editor updated to latest library version.

Web

Type	Change
[ADD]	GraffitiWebGrid now has a GetRowIndex method.
