

Enumerations

Name	Values
	This class exposes no enumerations.

Constants

Name	Type	Value
StyleChrome	Integer	4
StyleDarkGlow	Integer	8
StyleEarthTonesGround	Integer	2
StyleEarthTonesSky	Integer	3
StyleGraphite	Integer	0
StyleHighTech	Integer	5
StyleRing	Integer	6
StyleSegmentedRing	Integer	7
StyleSimple	Integer	1

Events

Definition	Description
	This class does not expose any events.

Methods

Definition	Description
StyleCount() as Integer	Returns the number of visual styles available.
StyleName(Index) as String	Returns the name of the style represented by Index.

Properties

Name	Type	Default Value	Description
BGColor	Color	&c000000	The background color of the progress display.
Bold	Boolean	False	Sets the font weight of the progress text.
BorderColor	Color	&c000000	Sets the border color for the progress display.
Italic	Boolean	False	Determines whether the progress text is displayed in italics.
Maximum	Integer	100	The maximum possible value (positive or negative).
Minimum	Integer	0	The minimum possible value (positive or negative).
ShowText	Boolean	True	Sets whether the progress text is visible.
Style	Integer	0	Sets the visual style of the progress class.
TextAsPercentage	Boolean	True	Sets whether the progress text is presented with percent sign (IE: 100%, as opposed to 100)
TextColor	Color	&c000000	Sets the color of the progress text.
TextFont	String	"system"	Sets the font of the progress text.
TextSize	Integer	-1	Sets the size of the progress text's font. When Value = -1, the text of the component will automatically size to fill the progress area.

Name	Type	Default Value	Description
TextSizeConstraint	Integer	100	Will constrain the text size to the percentage specified relative to the progress area.
Underline	Boolean	False	Determines whether the text is displayed with an underline.
UseCustomColors	Boolean	False	Determines whether the progress area is drawn using custom colors.
UseCustomTextSize	Boolean	False	Sets whether the progress text size is automatically calculated or custom.
Value	Integer	0	The current integer value.
ValueColor	Color	&c000000	Sets the color of the “completed” progress area when UseCustomColors is True.

Examples

There are currently no examples for this class.
