## Properties

Name	Type	Default Value	Description
IsSupported	<a href="#">Boolean</a>	False	If true, the user's browser supports speech recognition.

## Examples

There are currently no examples for this class.

## Notes

### Deprecation Notice

Due to the SpeechRecognition API development being stalled on all major browsers, with full support only available in Chrome on certain devices, GraffitiWebSpeechRecog is considered deprecated, and will receive no further updates until support is added to more browsers/platforms. It functions well as is in Chrome for Windows, Macintosh, Linux, and some versions of Android.
